

Product Information Focus 380

The Dynaudio Focus 380

The Focus 380 is a most impressive loudspeaker, representing the flagship of the Focus range.

Two extra-large 20 cm woofers, featuring ultra-rigid die-cast aluminum baskets, operate in tandem in a large cabinet volume to guarantee the utmost deep bass extension and low frequency performance.

Especially in larger rooms, a precise balance between high, mid and low frequency ranges is imperative – and the Focus 380 is ideally suited for this task. The mid/woofer and woofer cones utilize the proprietary MSP material in order to achieve a seamless sonic integration, while Dynaudio's finest soft dome tweeter design is employed to reproduce the high frequencies: The Esotar².

The overall musical performance is stunning: The Focus 380 is rich in detail, high in resolution but smooth in the high frequencies; open and precise in the midrange, and powerful and absolutely rock-solid in the bass and low bass registers: a loudspeaker for every room and any style of music.

- Coated 28 mm Esotar² soft dome tweeter with Precision Coating for natural, clean and clear highs
- Dedicated 15 cm MSP midrange driver with 38 mm aluminum voice coil for improved resolution and accuracy
- Two 20 cm MSP mid/woofers each with 75 mm aluminum voice coil for deep, precise bass down to 30 Hz
- Die-cast Aluminum baskets for increased rigidity and lower resonance
- Aluminum wire voice coil on new black Kapton[®] coil former for increased power handling
- Phase-optimised crossover design for perfect phase coherence
- Highest quality crossover components for absolute sound neutrality

Technical Specifications

Sensitivity	88 dB
IEC Power Handling	300 watts
Impedance	4 ohms
Frequency Response (+/- 3 dB)	35 Hz – 23 kHz
Int. Cabinet volume	Woofers: 61 litres Midrange: 9 litres
Bass Principle	3 Way Bass Reflex
Crossover Frequency	460, 2600 Hz
Crossover Slope	Woofers: 12 dB/oct Midrange: 12 dB/oct Tweeter: 12 dB/oct
Weight	34 kg
Dimensions (W x H x L)	246 x 1222 x 385 mm
