

Product Information Stand³

Compact Loudspeaker Stand

The Dynaudio Stand³ perfectly complements small and medium-sized modern compact loudspeaker designs.

The slightly tilted elliptical post offers the Stand³ a modern profile and dynamic shape. The high-quality High-gloss White or Black lacquer finish elegantly complements any interior. Either hue matches perfectly with the Dynaudio Focus 110 and 110 A and Excite X12 loudspeakers, especially when these models are finished in the respective lacquer variants. The Stand³ may of course also be utilized with a wide range of compact loudspeaker offerings.

The speaker is positioned on the Stand³ top plate either directly or atop spikes. The base plate itself is also fitted with spikes, which are adjustable in order to achieve a perfect foundation for the loudspeaker even on unlevel floors. Each spike can be adjusted easily from the top side via an integrated bolt. By fastening the corresponding nuts, the position can be fixed. The Stand³ cable management system neatly conceals the speaker cable, as it is routed through the base plate up through a separate channel integrated within the post. The slim yet durable steel and aluminium construction is extremely torsion-resistant and stable; while for additional damping and mass the post may be filled with sand or similar material.

Dimensions and Weight

Total Height	620 mm / 24.41"
Dimensions Top Plate (W x D)	145 x 195 mm / 5.6 x 7.5"
Dimensions Base Plate (W x D)	max. 212 x 302 mm / 8.4 x 11.9"
Weight	6 kg / 13.2 lbs
Finishes (High-gloss lacquer)	White or Black
